<b>11.30 am to 11.45 am - Networking &amp; Fellowship tea/coffee break</b>	
<b>11.45 am to 01.00 pm - “Aarogya Bharat 2025: Roundtable”</b>	
<p>Roundtable session on <b>“Indian Healthcare – Roadmap 2025: Opportunities for Intensifying Collaboration”</b></p> <p><i>Healthcare in India is at cross-roads. Multiple aspects of our health system are in a state of flux e.g. role of government, healthcare coverage, payment models, source of funds etc.</i></p> <p><i>Aarogya Bharat 2025 envisioned “A healthy India, where citizens are health-conscious and engaged and have equitable access to affordable health coverage with a focus on prevention, early diagnosis and assured minimum quality of care, offered by a vibrant ecosystem of public and private players operating in a sustainable healthcare system.” This is neither guaranteed nor automatic. It will be an outcome of conscious choice.</i></p> <p><i>A year since we first discussed this, this session will be focused on the near term initiatives that the private sector and government, as a team, can work on to make it a reality. In doing so, the focus will be on areas of collaboration between different stakeholders.</i></p>	<p><b>Moderator: Mr. Karan Singh, Partner and MD-India, Bain &amp; Co., (Knowledge Partner of NATHEALTH)</b></p> <ul style="list-style-type: none"> <li>• Mr. Len de Jong</li> <li>• Mr. Sushobhan Dasgupta</li> <li>• Mr. Rahul Khosla</li> <li>• Dr. Arvind Lal</li> <li>• Mr. Milan Rao</li> <li>• Mr. Swami Swaminathan</li> <li>• Dr. Sudhir Naik</li> <li>• Dr. Shuchin Bajaj</li> </ul>
<b>01.00 pm to 01.45 pm -Networking&amp; Fellowship Lunch</b>	
<b>01.45 pm to 03.00 pm -“Aarogya Bharat 2025: The Big Debate”</b>	

**The Big debate on “Health before Wealth: The path nations take”**

*Hardly any country in the world has become wealthy before becoming healthy. There is lag effect of investment in Healthcare, but there is a high correlation.*

*Is India is a sick nation or a healthy nation or a mix?  
-Mixed record on MDGs; significant progress on some metrics, lots of ground to cover on others  
-Along with CDs, India faces a tsunami of NCDs  
-Health Systems and individuals completely unprepared for dealing with this twin challenge*

*As nation, our struggle will continue unless we change. There needs to be a strong case for higher investment in health – HDI, growth, jobs etc. and the cost of status-quo/ in-action will be unacceptably high.*

*The silver lining happens to be evolvingis rapidly changing consumer attitude to prevention vs. curative health and the trend towards wellness in society.*

**Moderator: Mr. Parijat Ghosh, Partner, Bain & Co. (Knowledge Partner of NATHEALTH)**
