

RELX INDIA PRIVATE LIMITED **CSR Write Up**

Elsevier India is committed to help uplift the under-privileged, as part of our corporate social responsibility.

To this end, the RECare India team supports 2 NGOs (AshaSewaSamiti and MeraParivar) involved in the education of disadvantaged children.

In 2016, the team raised funds for both organizations through potluck activities in March (by Elsevier) and August (as RELX India – LN & Elsevier).

AshaSewaSamiti, an Uttar Pradesh-based NGO, focuses on **Education and Literacy** to promote **sustainable development**.

MeraParivar is committed to **empowerment and enabling communities, children, women and youth**. Through **education, building capacities and human resources**, it aims to help the disadvantaged realize their full potential and achieve self-reliance, thus helping them control their lives and future.

The RECare team also organized a blood donation camp at the Elsevier premises in September through the Red Cross Society of India, to mark RECare month.

Blood donation camp

Potluck activity at the cafeteria

In the past Elsevier has supported NGOs like Aarushi Shelter Home run by Salaam Balak Trust who provide education and home to girls (under 18 years), these girls are either abandoned by their families or have left their home due to some family issues.
