LIFE'S ON 

Manipal Hospital CSR Initiatives

Our Founder

**AFTER 60 GLORIOUS
YEARS IN HEALTHCARE,
WE BELIEVE YOU CAN
HELP US RENDER SOLACE
TO EVEN LARGER
NUMBERS**

Dr. TMA Pai, a doctor and philanthropist driven by the desire to provide healthcare and other essential services to the people of his region, turned the wilderness that was Manipal, in to a sanctuary of education by founding Kasturba Medical College. Opening its doors in 1963, this was to be India's first privately funded Medical College. The excellent reputation that this institution held was the genesis of a network of stellar hospitals & institutions

"All men who have achieved great things have been great dreamers"

Year wise fund raised

In Manipal Hospital, Bangalore we have efficient doctors in various multi- disciplinary fields like Cardiology, Oncology, Gastroenterology, Plastic surgery, Paediatric and Neonatology and other speciality. The Medical Social Work department is dedicated in helping not only the poor and needy patients but also the middle class patients who get admitted for a long period of time and are in debt.

We not only have tie ups with NGO's and Funding organisations but also have tie ups with some of the CSR companies who have funded our patients and so far we have received an approximate of Rs. 15lacks so far. As we provide concessional treatment we get patients from across India as places like West Bengal and other states where there are no proper Medical facilities.

We would be pleased to get some possible financial support from companies and organisations like you who come forward in helping the society in various fields like Health care, education, environment, etc.
