Nathealth's national forum puts forth key recommendations to government to galvanize senior and rehab care in India

Our Bureau, Mumbai
Friday, October 9, 2020, 16:10 Hrs [IST]

Recognizing the urgent need for immediate action on senior and elderly care in India, Nathealth's national forum puts forth key recommendations to government to galvanize senior and rehab care in India.

These recommendations are significant considering the changing demographic pattern, socioeconomic needs of the senior citizens, social value system and advancement in the field of science and technology over the last decade.

The new policy will replace the "National Policy on Older Persons, 1999.

Healthcare Federation of India-Nathealth has convened a cross-sectorial national forum which brings together all the key stakeholders with relevant ~~experience and expertise in senior care~~.

The cross sectorial national forum is also coming up with a white paper to strengthen the Centre's Draft National Policy for Senior Citizens 2020

Recognizing the urgent need for immediate action on senior and elderly care in India, Healthcare Federation of India-NATHEALTH has convened a cross-sectorial national forum which brings together all the key stakeholders with relevant experience and expertise in senior care. As part of its immediate initiatives, the forum has assessed and put forth key recommendations to strengthen the Centre's Draft National Policy on Senior Citizens, 2020. These recommendations are significant considering the changing demographic pattern, socioeconomic needs of the senior citizens, social value system, and advancement in the field of science and technology over the last decade. The new policy will replace the "National Policy on Older Persons, 1999".

The objective of the forum is to drive the right policy structure and governance framework for the Indian Government and establish a coalesced view of the action imperatives for each of the participant and stakeholder segments. It has also initiated work on a joint whitepaper that proposes solutions and ties together a roadmap on priority action areas pertaining to senior care in India. In the engagements so far, the forum has reached an agreement on common priority blocks/solution areas to formulate the agenda for the white paper with the relevant task forces being set up to conduct research and synthesize recommendations.
